5000 WATTS 1280 K. C. TUSCALOOSA, ALABAMA

TELEPHONE PLaza 8-3311  
POST OFFICE BOX 181

November 4, 1960

Mr. John Sampson  
570 Prospect  
Hutchinson, Minn

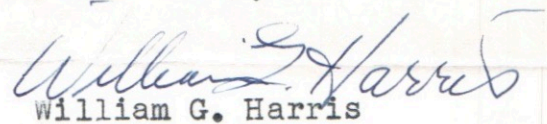

Dear Mr. Sampson:

I am happy to verify your reception of this station on October 30, 1960.

I was surprised that the temperature was a warm 40 degrees there at the time of reception. AS I remember, it was a few degrees less warm here in Tuscaloosa at that time... in the "Sunny South".

Thank you for your report of reception.

yours truly,

William G. Harris  
Chief Engineer  
Radio Station WNPT
