Mr. John Sampson  
1065 Jefferson St. So  
Apartment 10  
Hutchinson, Minn.

Dear Mr. Sampson:

Thank you very much for your report. In regard to the information you requested about our antenna system. The antenna system consists of one tower and since the ground conductivity is fairly constant our pattern is essentially omni-directional. Enclosed is our standard verification report.

Sincerely,

Philip B. Alexander  
Chief Engineer
