Dear Mr. Sampson,

Thank you very much for your DX report dated December 29th, 1993. I am happy to report that the station you monitored was indeed CIAO AM from Brampton, Ontario.

We are always very interested in receiving reception reports and especially those from the United States. We have received many from New York, Pennsylvania, and some even as far south as Georgia, but we have received few from your area. Your letter is a welcome addition to our collection.

CIAO broadcasts with a directional daytime pattern of 1000 watts, and an omnidirectional nighttime pattern of 250watts. Our transmitter site is located approximately 10 miles west of Brampton, and south of Georgetown, Ontario.

Please find enclosed a CIAO bumper sticker and a copy of our broadcast schedule. Thank you for taking the time to write to us and we hope to hear from you again in the future.

73's and happy dxing!

Yours truly,
