November 22, 1993

John Sampson
Minneapolis, MN

Dear John:

This is to verify the accuracy of your reception logged November 17, 1993. Your log is accurate which leads me to believe you were in fact receiving our station. We are a 25,000 watt station, the only one in South Dakota so we do get a lot of distant reception reports.

Sincerely,

Dana Caldwell
General Manager
