Dear John,

Thanks so much for writing and telling us of your report. You were correct on all the information you received. We are a 50,000 Watt contemporary christian radio station and we are located on 1030 KHZ. We are a sun up to sun down radio station and have been heard all over the United States and abroad. Since we send out so much power we are unable to be on the air for 24 hours. If we did stay on over night then we would interfere with a station in Boston.

Again thank you so much for writing and listening. I hope you are able to reach us again. Thanks for your time. God Bless!

In His Service,

Leanna H. Wilson
Music Director
