

March 19, 1993

Mr. John Sampson
4949 Aldrich Ave. S.
Minneapolis, MN 55409

Dear Mr. Sampson:

This letter will confirm your reception of KJJQ on March 13, 1993.

It is a pleasure to hear from our listeners...especially those who are DX'ers on AM Bands.

Our antenna radiation pattern is phased north/south during the day at 500 watts. The night pattern is northeast/southwest at 1000 watts. The pattern is changed by a phase shift in our four antennas.

Please be advised that your letter will be kept in our public/legal file under listener correspondence.

Thanks for listening to KJJQ!

Sincerely,

David E. Cole
Associate Broadcast Engineer
