

K J L A · 1510 am

sounds . . . unforgettable

April 30, 1993

John N. Sampson
4949 Aldrich Ave. S.
Minneapolis, MN 55409

Dear Mr. Sampson,

It is my pleasure to confirm your reception of KJLA 1510 Kilohertz on April 25, 1993.

KJLA is licensed to Independence, Missouri, although our metro area is Kansas City. It is a 10 Kw DA-D, or a two tower directional array, daytime hours only. Our pattern is a basic "figure 8" with the power lobes N by NE and S by SW and our nulls are to the W by NW and E by SE. I am enclosing a pattern map. We turned the station on April 1, 1993 after being off the air for almost 2 years.

I appreciate you letter and hope you try to DX us in the future.

Sincerely,

Craig Johnson
Technical Director
KJLA-AM
