6121 Sunset Boulevard,
Los Angeles, California 90028 U.S.A.

June 25, 1996

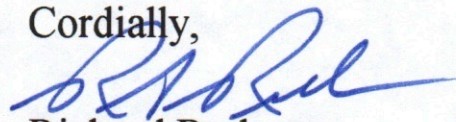

Dear Mr. Sampson:

KNX is pleased to verify your report of reception on January 1, 1995 between 11:14PM and 11:31PM PST.

Our 50,000 watt transmitter operates on 1070 kHz and is located in Torrance, 17 miles south of our Hollywood studios.

Thank you John for taking the time to listen to our signal and also for sending us the details of your reception.

Cordially,

Richard Rudman

Director of Engineering

Vin Deegan

KNX Technical Department.
