Dear Mr. Sampson

Thank you for your correct signal report, and for being interested in AM DX'ing! These type of reports are a real help to our engineering dept.

Our daytime power is 2500 watts, 350 watts medium, and we just added a 200 watt night power - we are now 24 hours on AM. You should give us a listen about 10pm some night.

Thanks Again,

Best Regards,

Charles Boese
