May 11, 1993

Mr. John Sampson  
4949 Aldrich Ave. South  
Minneapolis, MN 55409

Dear Mr. Sampson:

Please accept this letter as confirmation of your receiving WBEV (AM) 1430 Radio on May 4, 1993 at approximately 9:46 p.m.

WBEV operates with 1,000 watts day and night. At night we operate directionally using a three tower antenna system. Our night time signal goes in a north and east/west direction. The pattern looks like a "mushroom" with the short stem to the south.

Thank you for letting us hear from you. Hope you can pick us up again some day.

Cordially,

W. John Klinger, CRMC  
President & General Manager
