John,

Thank you for your Reception Report. I've enclosed a verification card and some other information that may be useful to you.

To answer your questions: WCAL moved its transmitting plant to its present location one mile north of the campus approximately 13 years ago, at the same time that we added our FM service at 89.3 MHz.

Hope that you will continue to listen and support Public Radio from St. Olaf College!

Sincerely,

Tim P. Valley,
Chief Engineer
