5/29/93

Mr. John N. Sampson
4949 Aldrich Av. South
Minneapolis, MN 55409

Greetings Mr. Sampson

I'm replying to reception report of Monday April 26. It is in order and herewith confirmed.

I've enclosed an original coverage with our night direction antenna pattern superimposed. We have a fairly hot signal in your direction at night. We also increase power slightly from 500 to 550 watts. The equivalent to about 3 kilowatts (estimated) in the major night lobes.

Good to hear from you. We don't get the number of QSL requests that came in when I started with this company fin 1964.

Sincerely

Clifford J. Groth
VP Engineering
Goetz Broadcasting Co.
