Mr. John N. Sampson
4949 Aldrich Avenue, South
Minneapolis, Minnesota 55409

Dear Mr. Aldrich:

This will confirm your reception of WGAB on April 24, 1993.

Thank you very much for taking time to write us. Obviously, it's a pleasure to know our signal skips that far away during the late evening.

It has been quite some time since I had any correspondence from anyone in Minnesota. Back in the mid-60's I attended Shattuck School down in Faribault for a year. I remember beautiful countryside and areas of more hilly terrain, including caves. I also remember very well how cold it was in the winter!

WGAB is licensed to Newburgh, Indiana, just outside Evansville in the southwest part of the state. We operate daytime-only and emit a signal of 670 watts on clear channel 1180 khz.

Mr. Aldrich, if you're ever in our vicinity, drop by for a visit. I would be most happy to take you on a tour of our station.

Again, thanks so much for writing!

Sincerely,

Don Davis
President & G.M.
