December 20, 1993

Mr. John Sampson
4949 Aldrich Avenue South
Minneapolis, Minn. 55409

Dear Mr. Sampson:

I'm pleased to confirm your reception of WLDS-AM, Jacksonville, IL, on December 14, 1993.

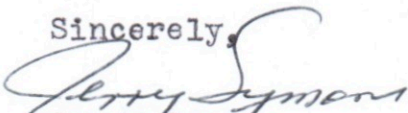

As you noted, WHAM in Rochester, New York, would normally prevent you from receiving the WLDS signal. We both operate on the 1180 Clear Channel frequency. However, Rochester operates with 50,000 watts while WLDS is a 1,000 watt daytimer.

Your listing of our programming from 4:23 till 4:38pm on December 14th was totally accurate.

I can't fit one of our coffee mugs or candy jars into this envelope, but am enclosing a pencil as a very small memento from WLDS.

Thanks again for your letter.

Sincerely,

Jerry Symons
VP/General Mgr
