**Dear Mr. Sampson**

Thank you for your reception report of **WNDE-AM 1260 Khz** on February 8, 1995. Please accept this as a confirmation of that report.

WNDE is a 5kw fulltime station with a seperate signal pattern for day and night. We are Omni-directional for daytime operation. For nighttime operation we use a 3 tower inline array, for broadcast in nearly a figure-eight pattern with coverage areas to the North and to the South. Our main transmitter is a Continental "POWERROCK" 5KW. And our back-up transmitter is an RCA BTA-5E 5KW.

Once again, Thanks for your reception report, and keep listening.

**Sincerely**

**Daniel J. Mettler**  
**Chief Engineer WNDE-AM**
