John N. Sampson
5210 Girard Ave. South
Minneapolis, MN 55419

Dear John,

It is my pleasure to confirm your reception of WNFL Radio on 11/21/90. Letters such as yours are eagerly received here and I am posting your letter in our employee lounge for the inspection of all.

John, we get just a trickle of DX reports here at WNFL these days. Sad to say that DX'ing AM stations is becoming a lost art, so we are very appreciative of your persistence in listening through the QRM to dig us out. I was surprised to see that we were riding over KQRS. Our day 5 Kilowatt direction pattern favors the North/Northwest, so we were pumping a few watts in your direction at the time of reception.

So, many thanks to you for the report. I am enclosing a "QSL" card of sorts for your collection. Much good DX to you over the upcoming winter "quiet" season on the AM Broadcast Band.

Yours truly,

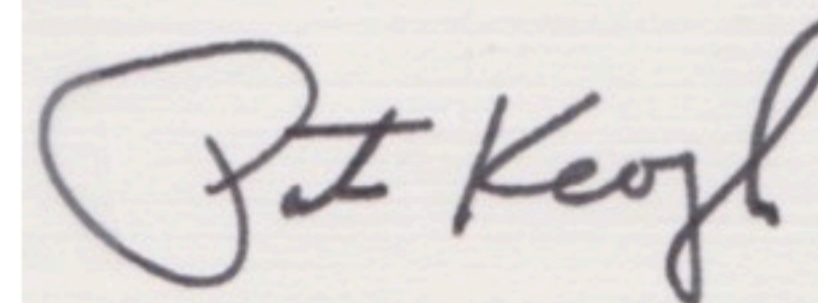

Patrick Keogh
Chief Engineer

PS - John, I also am a bit of a DX hound. I am 36 years old, an active ham operator and started building crystal sets when I was 7 years young. I still have a few of my QSL cards from AM stations dating back about 20 years ago. Look for me and my fellow ham gang on 160 Meters, 1992 KHz operating old time AM equipment. 73.

TO: John N. Sampson

Confirming reception of WNFL 11-21-90.
