Subject: Mn/ROAD Radio Tower

Dear Mr. Sampson:

This will confirm your reception of WPAL378 on December 14, 1992. WPAL378 is a highway advisory radio message operated by Mn/DOT on 530 AM. Our transmitter is located just west of Albertville, MN off Interstate 94. The radio is running on 5 watts of power (adjustable to 10 watts max). The antenna is mounted on a 30 foot power pole.

The radio is operated to inform the traveling public on the Minnesota Road Research Project (Mn.ROAD), which is a pavement design research center being constructed by Mn/DOT. If you would like any further information, feel free to contact me.

Sincerely,

John E. Hippchen
Assistant Manager, Mn/ROAD
