Dear Mr. Sampson:

I am pleased to confirm your reception of WRPX on 1 December, 1984 from Minneapolis,

As you can see from the enclosed coverage map, your assumption as to our directionalized pattern was correct. We radiate a figure "8" pattern with the large lobe directed west and the small lobe east. Our towers are located just east of Hudson on the north side of I-94, again as you assumed.

I am always pleased to receive reception reports from NRC members, and commend you on operating a fine, worthwhile organization. Should you ever be in the Hudson area, please feel free to stop in.

Best of continued luck with DXing!

Very truly yours,
CORNWALL BROADCASTING CORP.
