Dear Mr. Sampson:

This will confirm your reception of WVNN on November 8, 1994.

You may or may not know that due to WABC-New York's clear channel, we must power-down at dark, thus the signal fade @ 5:04. We are 10,000 watts day and 250 at nite.

I have been to Minneapolis many times on business and often stayed at the Marriott in Bloomington, across from the Met Center. I also have a warm-spot for Minneapolis because it was once home to my beloved Lakers. I grew up in Los Angeles, and remember when the Lakers, accompanied by Hot Rod Hundley and a pretty fair ballplayer by the name of Elgin Baylor, left Minneapolis and arrived in Los Angeles in time for the start of the 1960-61 N-B-A season. Your loss was our gain. I refer to myself as the biggest Laker fan of all-time. Most friends and acquaintances agree.

Thanks for your letter.
