

CHWO 1250 RADIO

WHERE MEMORIES ARE MADE OF MUSIC

24th October, 1974

Mr. J. Sampson,
52 Delowoch Avenue,
New Providence,
New Jersey.
07974

Dear John:

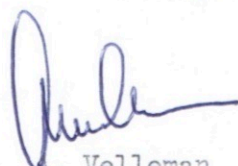

Your report of Reception dated October 8, 1973 is confirmed, and has been noted and recorded in our Reception Report Files.

CHWO's interesting feature is that it's aerial towers are used not only on 1250 KHZ for CHWO, but also for CJMR (daytime) on 1190 KHZ. The ground system and transmitter buildings are common to both stations.

CHWO changes power and pattern at daylight and dusk.

Your Reception Report is appreciated.

Yours truly,

J. Velleman
Director of Engineering
CHWO / CJMR
