Dear *John*

This is to verify your reception of our station on Dec. 17, 1973
between 1:30 am and 2:30 am CST.

We operate on a frequency of 1530 KHz daytime with 1000 watts from
a Gates Vanguard II solid state transmitter.

We have received about 40 reports by mail so far. I am enclosing
a list which is complete to this date.

Thank you for your report.

Paul
