John N. Sampson
90 Pearl Street
New Providence, New Jersey
07974

Dear Mr. Sampson:

This is in verification of your reception of KSMM from 0155 to 0215 CST on February 7, 1966. Your information is completely accurate.

Enclosed is a coverage map of the station, plus some information about us. Our antenna is a single, guyed 197 foot tower located in a peat bog between Shakopee and Chaska, and the Collins 550A-1 transmitter is remote controlled from downtown Shakopee.

Thank you for your reception report, and happy DXing.

73,
KSMM Radio

Michael F. Kramer, Chief Engineer
