Doylestown, Penna.

April 7, 1966

Mr. John N. Sampson
90 Pearl Street
New Providence, New Jersey

Dear John,

Your reception report for Saturday March 19 was very much so correct. It is a pleasure to receive reception reports from such loyal radio fans as yourself.

We at WBUX has a varied format of music. We feature Middle of the road formating and C&W for two hours and then I rock on in the afternoon till sign-off which this month is 6:45.

Any ~~time~~ that you may be in Doylestown just feel free to stop by at our station. We would be glad to see you.

By the way we are directional. And our signal should not be up that way. Probably the wind was going in that direction.

Many thanks again.

Sincerely,

Bob Hamilton
Chief Engineer
