P.S. We have a 1/4 tower of 250w. 99% at night, non directional. Most DXers have trouble with WFAA which has a 1/2 tower of about 600w more R.F.

Monitoring Report for Radio Station WINF on 1230 kHz.

Date Monday January 13, 1975 Monitoring period 3:45 AM to 4:05 AM Eastern Standard Time

It was my pleasure to monitor transmissions from your station during the above period. As proof of reception I offer this log of items heard:

- 3:45 PSA concerning early tax filing from the IRS
  - 3:45 1/2 PSA for the Helix Keller Crusade
  - 3:46 Weather forecast
  - 3:46 1/2 Song by Herb Alper & TJB
  - 3:49 Announcement (quite faint & I couldn't understand it)
  - 3:50 Song - "Ticket to Ride"
  - 3:53 1/2 Announcement of the time & you faded
  - 3:55 1/2 Sports news (in progress) as you became audible
  - 3:56 you faded again
  - 4:03 CBS News (in progress)
  - 4:05 End of the news & song - "Mr Tambourine Man"
- You faded again.

On the basis of the above details, I wish to request a brief letter confirming the fact that I have received your station's signals. I collect these letters as a hobby and would be most pleased to add your confirmation to my collection. For your convenience in replying I have enclosed return postage. Thank you for your time and consideration. I hope this report has been of interest to you.

What are your current broadcast hours - 6 AM SUNDAY TO 12:30 AM following Sunday

I was surprised to hear WINF this morning as I wasn't aware you were all night. Many thanks!

The self-addressed, stamped envelope.  
Sincerely,  
John Sampson

### Technical Information

Receiving equipment: Hammarlund HQ-180 A receiver with 1 foot ferrite core antenna (which gives excellent directional properties & ability to null)  
Interfering stations: Heavy from several others, however due (to the weather, I think, 1230 wasn't as jumbled as usual & you kept poking on top.)  
Reception conditions: Poor-rainy & about 39°
