

March 18, 1966

Dear Friend:

This is to verify your reception of WMPO on the morning of March 7, 1966 between 3:00AM and 3:30AM during an equipment test for the National Radio Club.

We are very sorry that we cannot answer each response individually, but the response has been so great that it would require much more time than we have available.

In general best reception was to be had to the south and west. Poorest reception reports came from the east especially the New England states.

We were able to confirm reception as far away as California and Alaska.

Several reports came in from Canada.

WMPO wishes to thank the National Radio Club and its members for giving us the opportunity to conduct this test.

Sincerely yours,  
RADIO MID-POM, INC.

  
William C. Miller  
Station Manager
