Dear Sir:

We were very pleased to receive your DX letter of January 1st, and to hear that you were able to pick us up in Omaha. It might interest you to know that we are on 5,000 watts with a directional antenna. We just went to 5,000 watts a year ago November 2nd and we are very surprised that you were able to pick us up as XEG in Mexico, who are 150,000 watts, have even given us a lot of trouble up here in northern Alberta.

We would be pleased to hear from you at any other time you hear us.

Yours very truly,
