

# RADIO STATION CFSL

250 WATTS  
1340 KILOCYCLES

WEYBURN  
SASKATCHEWAN

July 10, 1958

Mr. John Sampson,  
7940 Pacific,  
Omaha, Nebraska,

Dear Mr. Sampson;

I recollect your report arriving before,  
but I do not remember if we replied and if  
I'm not mistaken we also received some word  
from you regarding the night we stood by, so  
that Dxers might log a station in eastern Canada  
on 1340 kilocycles.

Please accept this as confirmation of your  
reception report of Monday March 31, 1958.

KDB/bas
