Offices and Studios in the Lindsay Building

September 2, 1958.

Mr. John Sampson,
7940 Pacific,
Omaha, Nebraska,
U.S.A.

Dear Mr. Sampson:

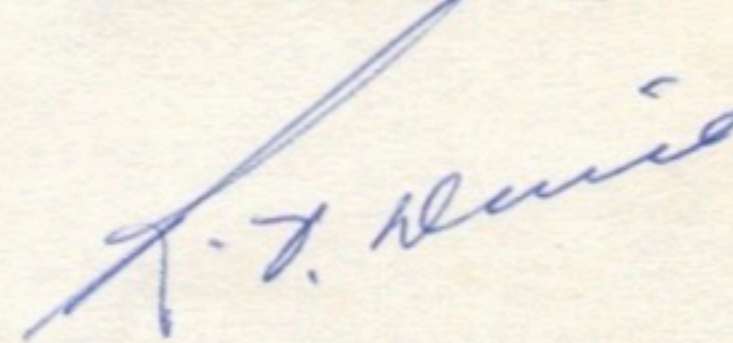

This is to acknowledge and thank you for your report of July 8th, 1958.

As the program content you have listed checks with our log you may consider this as a verification.

Our night pattern is directed slightly east of north to protect CHFA in Edmonton and CKGB in Timmins, Ontario and also American Stations on the frequency.

Our night power is $2\frac{1}{2}$ KW and since August first our day power has been 10 KW. We continue to have duplicate transmitters.

Yours sincerely,

R.V. Durie,
Chief Engineer.
