5 Kilowatts Day . . 1 Kilowatt Night . . 1480 Kilocycles

WICHITA, KANSAS

January 11, 1957

Mr. John N. Sampson
7940 Pacific
Omaha, Nebr.

Dear John;

This is to confirm the reception of K.A.N.S. on January 4, 1957. Thanks a million om. Glad to hear that we are getting out that far. We have 5 KW more or less non directional at that time of day but are directional with 1 KW at night and dont have much luck getting out particularly in that direction.

~~THE~~ At the present time we are using an old Collins 21c xmtr., but are planning to install a new RCA 5 KW in the very near future. Would appreciate anoutner reception from you at that time. Shoud be completed in about 2 months.

Hoping to hear from you again, I remain

Respectfully,

Richard D/ Croft, CE
