Omaha, Nebraska

Dear Sir,

Your report of reception of KBTO on Monday July 21, 1958 is hereby verified.

I am indeed sorry that I had not gotten to answer your previous report sooner, things have been so mixed up here in El Dorado due to the tornadoes coming. Your letter was placed in my file without coming to my attention.

We indeed appreciate reception reports very much as they do give us useful information on our signal. We will be looking for further reports from you in the future.

sincerely, .

Jay H. Williams
