Dear Mr. Sampson:

This letter will confirm your reception of KBWD from 10:28 p.m. to 10:30 p.m. on March 25, 1956. At the time you heard KBWD we were operating with 500 watts power.

The enclosed map shows KBWD's 0.5 mv/m contour and 0.1 mv/m contour. These contours are based on 1000 watts of power, our regular daytime operating power.

Thank you very much for reporting your reception of KBWD.

Very truly yours,
