

January 2, 1958

Mr. John Sampson
7940 Pacific
Omaha, Nebraska

Dear Sir;

This will serve to verify your reception of KCRC on the evening of December 27, 1957.

The Chevrolet News, announcements for Liberty Federal and Coca Cola, were broadcast on this station at the times mentioned in your letter. We do have a local news cast from 6:00-6:15, but I am not able to say if the newscaster gave market reports at 6:07 P.M.

KCRC operates on a full time power of 1000 watts. We are a directional station, with the same pattern day and night. We broadcast from three 186 foot antennas with the three towers in a line from east to west.

Should you require further information, please let me know.

Sincerely,

Bill B. Marshall
Program Director
