Omaha, Nebraska.

Dear Sir:

This is to verify our Frequency Check of September 3, 1954, 1:00 A.M. to 1:30 A.M. We run a frequency check at that time on the first Friday of each month so here's hoping you tune us in again. Here's some advance notice.... The owners of this station are constructing a new station at Redwood Falls, Minnesota. The call letters are KLGR and the Frequency is 1490 KC's with 100 watts. We will be starting equipment tests in a week or 10 days from midnight to 6:00 A.M. Drop them a line if you pick them up.

Yours truly,
Dick L. Beekman
Dick L. Beekman,
CE- KDMA.
