

RADIO 1560 kHz
1,000 WATTS

Rick Hammer, Chief Engineer
KEGG Radio
P.O. Box 600
Daingerfield, Tx. 75638

Dear Mr. Sampson,

This is a letter of verification concerning your reception of Radio Station KEGG on Monday, December 10th, from 2:29 AM to 3:02 AM, Central Standard Time. All reports received to date say almost the same thing: interference from KCJJ in Iowa City, Iowa.

Most of the letters I have received want a bumper sticker or something along that line for a souvenir. I am enclosing a coverage map in appreciation of your time spent.

As of 12/21/79, I have received letters of verification from: New Jersey, Ohio, Illinois, New Mexico, Nebraska, Pennsylvania, Florida, Iowa, Massachusetts, Virginia, and Tennessee.

I want to thank you and the members of the Radio Club who took the time to monitor KEGG. The information received was very interesting.

HAPPY NEW YEAR TO YOU AND YOURS!

Sincerely,

Rick Hammer, Chief Engineer
KEGG Radio
