Mr. John Sampson  
7940 Pacific  
Omaha, Nebraska

Dear Sir,

Thank you for your letter reporting the reception of signals from KFI's 5kw auxiliary transmitter, located here in downtown Los Angeles. These tests are run every Monday morning from approximately 12:05 to 12:30 a.m., and the power is a full 5,000 watts. The antenna is not the same as that used at the main transmitter, which is located 21 miles south-east of downtown Los Angeles.

We enclose our verification stamp.

Your very truly,

H. M. McDonald,  
Operations Supervisor  
Engineering Department
