ALAN K. ABNER, STATION MANAGER

June 21, 1956

Mr. John Sampson  
7940 Pacific  
Omaha, Nebraska

Dear Mr. Sampson:

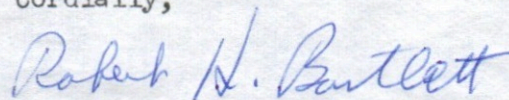

I'm sorry your first request for confirmation of your reception report of KFJI was not answered.

Your report certainly sounds like you were receiving us as you stated. At that time of night we are directional South-East to North-West with a power of 1000 watts. Our antenna tower is about 5000 feet above sea level.

We run 5000 watts from sunrise to sunset, with a Collins 21-B transmitter.

Thanks for your interest.

Cordially,

Robert H. Bartlett  
Manager

RHB:jb
