

K G B T RADIO STATION

1530 On The Dial

P. O. Box 711

Harlingen, Texas

February 5, 1957

Mr. John Sampson  
7940 Pacific  
Omaha, Nebraska

Dear Listener:

This will verify your report of receiving our station on December 31, 1957. The details in your letter were essentially correct.

We operate with a power of 50,000 watts daytime and 10,000 watts at night. Our frequency is 1530 kilocycles and we have six towers in our directional antenna system. Our transmitter is a Western Electric with a high-efficiency Doherty amplifier.

Our regular broadcast day is from 5:30 AM until 11:30 PM weekdays, and 7:00 to 11:30 on Sundays.

We appreciate your interest very much.

Yours very truly,

*S. Harold Jones*
