Mr. John Sampson  
7490 Pacific  
Omaha 6, Nebraska

Dear Sir,

This will confirm your reception of KGDM at approximately 12:50 AM, Pacific Standard time, on the morning of December 26, 1955.

KGDM operates non-directional days, directional nights, with a full time power of 5000 watts. Our night time pattern is a simple cardioid pointed 306.5 degrees true. Our field intensity to the front is 710 mv/m at one mile, and our field intensity in the null is 26 mv/m at one mile.

Sincerely yours,

*J. Tryon Kelley*
