Omaha, Nebraska

Dear Sir:

Please excuse the delay in answering your letter concerning our frequency check on the morning of April 19, 1954. Let this be our confirmation that you did receive our station at that time. We were in the process of changing our operation frequency from 1230 to 1240 Kc. and have been making frequency checks each week until the procedure and red tape are dispensed with. There seemed to be a lot of interference that morning because Kansas City had some difficulty in completing the check.

Thanks for your letter and we hope to hear from you again in the future. We have hopes that our next check will be on 1240 Kc.

Sincerely,

George F. Potter
