Omaha, Nebraska

Dear Sir:

Your reception report for Saturday; Feb. 2, 1957 is correct. In February we sign off at 6 PM except that the name you caught is Jack Chaney instead of Jay Kenny. Pretty close though.

Of course, we at KJCK are not too happy having another station that close to our pattern directly on our frequency, and we have learned that the Omaha station has applied for an increase in power. We are hoping that the situation doesn't get any worse.

I'm sorry that I didn't get your first letter that you sent. Sometimes the channels around here aren't the most reliable. But I hope that this letter is what you wanted.

Sincerely,

*Royce Baerg*
