Dear John,

This is to confirm your letter of reception report concerning our signals heard by you on January 2, 1956 at 2:16 am cst until 2:20 am cst. As you heard in reception, our transmissions were frequency checks for that morning.

Thanks for the report, glad to know we're skipping out a little. Sorry to be so late with confirmation, though. I was just coming to work here about the time your first letter was sent, so possibly in the reshuffling of files and so forth, it must have been misplaced.. so, glad you wrote us again.

Continued good listening and DX.

Sincerely,
John E. Witt
Chief Engineer
