Mr. John Sampson
7940 Pacific
Omaha, Nebraska

Dear Mr. Samson,

We are happy to confirm your reception report of
February 2, 1958.

Depending on the direction of your long wire antenna,
and considering the fact that KMYC-AM drops to 1kw at
sunset, with a directional antenna system feeding most
of the signal to the north, it is indeed a good report.

Thank you, very much.

Very truly yours,

RADIO STATION KMYC
