CODY, WYOMING

OCT. 15, 1954

Dear John;

This is an answer to your DX letter of Sept, 3 1954 to KODI. Sorry for the delay but your letter got lost for awhile and just showed this morning, so I got right at it. Your report of hearing a 1000 cycle tone and our KODI call letters on SEPT. 3 from 3:00AM to 3:12AM is correct as that is the time for our monthly freq. check. This check falls on the morning of the fourth Fri. of the month. Thanks for your letter and I'm sorry about the delay. Good DXing for your club.

Sincerely Yours

Hal Bowen

Chief Engineer KODI
