

DEAR JOHN:

I'M GLAD TO HEAR THAT WERE GETTING OUT THAT FAR. ONE WEEK EARLIER WE PLACED OUR NEW TWO TOWER DA SYSTEM ON THE AIR. INSTEAD OF TRANSMITTING 600 WATTS ND DURING CRITICAL HOURS, WE ARE NOW ABLE TO TRANSMITT 10KW DA DURING CRITICAL HOURS. DURING CRITICAL HOURS OUR 0.025 mv/M CONTOUR IS AT GARNER, IOWA.

ANY FURTHER REPORTS WILL BE APPRECIATED.

RAY TOPP C.E. KOLM
