KQDE FM

(507) 835-5555

August 28, 1980

Mr. John N. Sampson
1714 South 84th Street
Omaha, Nebraska 68124

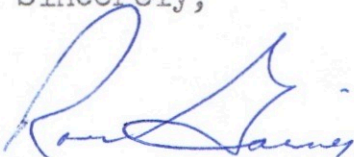

Dear Mr. Sampson;

I was happy to receive your monitoring report concerning KOWO Radio. I have checked our program log from August 16, 1980, from 8:12 P.M. to 8:15 P.M...and your log of events heard is correct. We are a daylight station, and therefore, our sign-off time during August is 8:15 P.M. CDT. KQDE, our FM station, is on the air from 6:00 A.M. to 12:00 midnight.

You also asked about our antenna pattern, and we are (on KOWO) 1000 watts, non-directional. KQDE operates from the top of our AM tower (332 feet) with an ERP of 3000 watts at 92.1MHz.

I hope this letter is some help to you about our station, and I thank you for sending your monitor report.

Sincerely,

Ron Gaines,
Operations Manager
KOWO/KQDE (FM)
