Omaha 6, Nebraska

Dear John:

Your information on our frequency check of the 14th of February is absolutely correct. Happy that you caught our call. We were checking out with **Kansas City**.

We are in hopes of going to 1000 watts this spring so there will be quite a few changes around the station, but I can give you a brief run down on what we have now. We are operating with a Gates transmitter, Ratheon console, and an Altec-Lansing Limiter.

Thanks again for the letter and many happy hours of DYing in the future.

Sincerely,  
*Bob Brown*
