Dear Sir:

This will verify your reception of KSUM on July 5, 1958
from 4:30 - 4:31 AM CST.

We are directional to the North, with a rather tight
pattern night time - and a fairly loose pattern during
the day. However, I do not understand the reported poor
reception in Northfield during daylight hours. Our signal
seems very good in that area when checking with my car radio,
even tho our main lobe bypasses Northfield to the West.

Thank you for the report, and good luck in your DX-ing.

Sincerely yours,

Larry Lawson
