Dwight "Red" Harkins, Gen. Mgr.

January 10, 1956

Mr. John Sampson
7940 Pacific
Omaha 6, Nebraska

Dear Mr. Sampson:

I hope you'll excuse the long delay in answering your letters.

Here is the verification of reception which you requested. Your description of our programming tallies with our log for Jan. 24, 1955, from 1:17 am to 1:30 am, CST.

Thank you for your interest and your patience.

Very truly yours,

Ben Smith

Ben Smith,
Chief Eng.

P.S. Here's the other information you requested as to our broadcast schedule and signal pattern:

Daily 6:00 am to Mid. Sundays 7:00 am to 11:00 pm.

Our night-time radiation with 500 watts power shows a minimum at 301 degrees and 121 degrees of 250 watts of effective power, in those directions. The pattern is a smooth ellipse.
