December 19, 1957

Mr. John N. Sampson,
7940 Pacific,
Omaha 14, Nebraska.

Dear Mr. Sampson:

Thanks very much for your reception report of Dec. 1, 1957. It is surprizing that you could copy us through WING, as they are non-directional, with 5 Kw., and we are 1 Kw., directional, with a severe null approximately in your direction.

Nevertheless, your report was correct, and our thanks again for your intricate report.

Sincerely,

Gene T. Williams,
Chief Engineer,
Radio Station KWBB.
