

June 21, 1958

Mr. John Sampson
7940 Pacific
Omaha, Nebraska

Dear John:

This is to verify that your air-check corresponds with our log of Wednesday, June 18, at 3:30 pm.

As you can tell from our letterhead, we are 250 watts, and concerning our station, I am including a few facts, which many of you fellows would like included.....

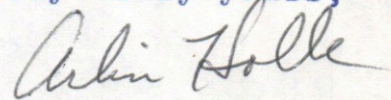

We are a full-time station on the lisenche, and broadcast from 6:00 am till 11:00 pm ordinarily. We operate independant, and carry Kansas City baseball, as well as local sports the year-round. United Press International News Service, and ~~we~~ just had our ninth birthday this month.

We operate with a Collins 300-J transmitter, RCA Limiter, Gates Automatic Gain Amplifier, RCA Console, so you see we have a bit of everything in equipment. We also have a stand-by control room, which ordinarily is used for taping purposes.

Our tower is a 159 foot Blaw-Knox, self-supported tower, and we are all under one roof with the studios, and transmitter in the same building.

Thanks for your interest....

Very truly yours,

Arlin Holle
Program Director &
Chief Engineer
